Notes:

- 1 Some of the part of body categories shown in this table incorporate related categories from Table 4 (e.g., fingers includes thumb(s); internal organs includes lungs and heart).
- 2 Rate is the number of injuries calculated per 1000 females employed in Colorado (the population-at-risk).
- 3 Rate is the number of injuries calculated per 1000 males employed in Colorado (the population-at-risk).
- 4 Rate ratio is the rate for males/rate for females. A rate ratio greater than 1 means males had a higher rate than females; a ratio less than 1 means males had a lower rate than females. (CI = 95% Confidence Interval)
- 5 Total number of lost-time claims is 29,231; 22 claims were missing data for gender.
